**Subject:** Data From CFAC South Percolation Ponds

Mr. Cirian,

Attached is the data from within or around the South Percolation Ponds at the CFAC Site. These are the data included in the Phase I Site Characterization Data Summary Report. These data are screened against the human health screening levels identified in the RI/FS Work Plan.

The data is also being screened against the ecological screening levels in the SLERA summary report, which will be submitted in the next two weeks with the revised SLERA Summary Report.
